Executive Challenges Insinuations That the Bill Was Framed for the Favored Interests—Says That He is Appealing to Save the Treasury—Comments on Address

(By The Associated Press)
WASHINGTON, Nov. 21.—President Harding in an address today to a joint session of congress urged speedy enactment of the administration shipping bill as a means of cutting down present losses thru operation of government ships and putting America at the forefront "in the peace triumphs on the seas of the world."

At the outset of the thirty minute speech the president frankly declared that those standing with him might as well recognize that there was divided opinion and determined opposition. It would be helpful in clearing the atmosphere to start with the recognition of this fact he said, adding that it was no new experience.

With great emphasis the president challenged "every insinuation that the bill was framed for the benefit of 'favored interests' or for the enrichment of the special few at the expense of the public treasury."

RAILROAD LABOR BOARD REVERSES MARYLAND CASE

Finds for Striking Shopmen Against Maryland Road

(By The Associated Press)
CHICAGO, Nov. 21.—By finding for the shopmen and against the carrier in their case against the Western Maryland railroad company where the question of contracting out shop work is involved, the railroad labor board for the first time has deviated from its policy that employees, by striking take themselves from the jurisdiction of the transportation act. In the decision issued today the board construed the farming of contract work to remove the employees from application of the act and directed the carrier to make up the matter of reinstatement with the employees.

The shopmen of the road struck March 25, 1922 after the road had contracted its shop work in Maryland, West Virginia and Pennsylvania, the "contractors" contractors working rules and cancelling of pay established by the labor board. The road held that because of the contracts the shopmen were not its employees but those of the contractors and that by virtue of their strike, they had failed to comply with the rules and decisions of the labor board and thus withdrawn from the board's jurisdiction.

The board's opinion stated that "these contracts were merely subterfuges by which the carrier arbitrarily changed the wages and working conditions of these employees without compliance with the provisions of the law and that by taking steps to close its shops, transfer its employees to a new employer, remove them from the application of the transportation act and obliterate their wages and rule agreement and their action was equivalent to a lockout."

BRIEF PART IS PLAYED BY U. S. AT CONFERENCE

Ambassador to Italy States Position of Official Observers

(By The Associated Press)
LAUSANNE, Nov. 21.—The United States played a brief part in the Near Eastern peace conference today, Richard Washburn Child, American ambassador to Italy making a declaration before the assembled delegates of the position of official observers representing America. American participation in the conference will consist of joining in the discussions and safeguarding as far as possible rights which the United States feels must be protected in the interest of America and the rest of the world. The American observers will not vote or act as members of any of the commissions.

Two sessions of the conference were held today. At the first, organization of three commissions was arranged; the first on political and military matters with an English chairman; the second, on economics, finance and public health with a French chairman; and the third, on capitulations, minority populations and similar questions, under an Italian chairman.

The afternoon session was devoted largely to a general discussion.

The speakers were M. Barriere, of the French delegation, Marquis di Geronzi, for the Italians; Lord Curzon, for the British and Baron Hayashi for the Japanese.

M. Barriere's address smacked strongly of the old time diplomatic and was a plea for negotiations in secret.

"Diplomacy, thank Heaven, does not seek publicity," the head of the French delegation declared. "It dislikes treating affairs too much in the market places to have its work influenced by fluctuations of opinion ready to approve tomorrow that which it rejected yesterday."

Following the example of most of the other post war conferences, the present gathering has agreed that the proceedings of the closed meetings shall be confidential, except for such "communiqués" as may be issued by the order of the General Secretary.

Eight powers are actually participating in the conference as full members. They are Great Britain, France and Italy, the inviting powers; Turkey, Greece, Rumania, Japan and Yugoslavia.

When questions affecting the regulation of the Bosphorus and the Dardanelles are under consideration all the states bordering on the Black Sea may participate. This means that Bulgaria, Ukraine, Soviet Russia and Georgia will be given a voice in the straits settlement if they so desire. Bulgaria is represented here but the Moscow government has declined to participate unless granted full powers on all the questions under consideration.

In view of the lack of representation of the Moscow regime or any of its federated states, the conference has decided that other countries not originally invited to the meeting may be admitted to answer information and discuss such matters as may affect their interests.

They will have no vote.

HEARING IS HELD ON ELECTRIC RATES

(By The Associated Press)
SPRINGFIELD, Ill., Nov. 21.—The hearing before the Illinois Commerce Commission on complaint for excessive rates for electricity service in Rockford, which began today, was continued at a night session of the commission tonight. Desire of attorneys to complete the taking of evidence prompted the night session members of the commission stated.

Records of the Rockford Electric company were introduced in an attempt to show that the present rates were not excessive if an adequate return on capital is to be allowed.

The rates were opposed by Attorney David D. Madden, representing the city of Rockford.

FEDERAL PRISONER DIES AT LEAVENWORTH

William Cross Lloyd Surrendered Tuesday

(By The Associated Press)

JOLIET, Ill., Nov. 21.—William Cross Lloyd, wealthy radical convicted of violation of the Illinois anti-syndicalist act surrendered himself at the state penitentiary here tonight at 10:45 P. M. to begin serving a sentence of from one to five years.

Lloyd was met at the prison by Deputy Sheriff Burns of Chicago, who had the commitment papers.

Lloyd was ushered into the guard's corridor passing for the first time behind the heavy iron bars that will shut him off from the outside world during the time of commitment. No word was spoken by Lloyd. He appeared gloomy and downcast. A clerk recorded the commitment papers and Lloyd was assigned to a detention cell for the night.

Deputy Burns told newspapermen and photographers who had gathered at the prison that Lloyd's surrender was pre-arranged and that Lloyd had been in Joliet all day. Lloyd, accompanied by his wife and Mrs. Robert Wilson, wife of the superintendent of prisons at the prison, drove up to the prison entrance in a closed car. He successfully evaded newspapermen outside and when he was ushered into the prison's main corridor another crowd of newspapermen attempted to question and photograph him. But their efforts with the exception of one flashlight were unsuccessful. Because of the presence of Mrs. Wilson with Mr. and Mrs. Lloyd, newspapermen suspected that some move had been started to secure a parole for the wealthy radical. But this was denied by Mr. Wilson. He pointed out that no such effort could be made before next December when the parole board meets in Springfield.

William Cross Lloyd, million-

aire communist and laborite of Winnetka, a Chicago suburb, inherited a fortune from his father, the late Henry D. Lloyd, Boston philanthropist. His inherited wealth was greatly augmented in recent years while he was a stockholder in one of Chicago's daily newspapers.

Lloyd has been known as a radical for years. He was arrested during the war by Chicago police for displaying the red flag above the American flag on his automobile. He declared the red flag was his flag and that he flew the stars and stripes merely as a courtesy to the American government.

With his wife, Madge Bird, he took an active part in the affairs of the left Socialist party after issuing the radical manifesto of July 1, 1921. Lloyd and his friends presented credentials at the Socialist convention in Chicago in September, 1919, but they were thrown out. They then formed the communist labor party while a number of other left wing leaders went into a separate convention and organized the communist party. Both new groups affiliated with the third internationale of Moscow.

Lloyd was selected sergeant-at-arms of the Communist Labor Party. He was a close friend of William "Big Bill" Haywood, the former I. W. O. leader who fled to Russia last year to escape a 20 year prison sentence. It was Lloyd who furnished \$10,000 bonds for Haywood when he appealed from his conviction by Former Judge Kenesaw M. Landis, and it was Lloyd who put up another \$10,000 when Haywood was caught in the January 1919 roundup when Lloyd also was arrested and convicted. He lost one of these \$10,000 bonds when Haywood fled.

NIGHT SESSIONS MAY BE HELD TO GET HERRIN JURY

Court Ruling Makes Task of Selection More Difficult

(By The Associated Press)
MARION, Ill., Nov. 21.—Night sessions of court probably will be held this week in an effort to expedite the selection of a jury to try five men charged with murder in connection with the Herrin mine riots last June, according to an announcement made tonight by Judge Hartwell.

Attorneys for the state declared that the task of selecting the jury has become more difficult as a result of a ruling this afternoon by Judge Hartwell that an opinion as to the lawfulness or lawlessness of the 23 killings in the disorders was just reasons for excusing veniremen for cause.

The defense was in the lead today in examining veniremen and twice was forced to use peremptory challenges to remove men, whom attorneys for the defense felt would not be advantageous to their side, making four challenges exercised by the defense out of a total allotted. The prosecution has used approximately a score of challenges.

The panel of 50 veniremen which reported yesterday was virtually exhausted today and another 50 veniremen have been ordered to appear tomorrow.

Attorneys for both sides reached an agreement today, which will permit the four jurors who have been accepted to exercise themselves while efforts are being made to complete the jury.

SUSPENDS PROPOSED ADVANCES ON CORN

(By The Associated Press)

WASHINGTON, Nov. 21.—Secretary Wallace today announced the suspension of proposed advances in the price of corn by the Union Stock Yards and Transit company of Chicago, and the Milwaukee stock yards company. The suspension is for 30 days and is made to enable a hearing as to the reasonableness as to the proposed new rates.

The new change as proposed at Chicago would have become effective today and provided for a charge of \$1.25 a bushel an advance of 15 cents over the present charge. The hearing is scheduled for December 14. The proposed increase at Milwaukee was identical with that at Chicago.

SUIT 27 YEARS OLD IS DISMISSED

Chicago, Nov. 21.—A suit for \$500 filed 27 years ago and held to be the oldest pending litigation in the superior court here was dismissed today when it developed that neither of the litigants knew the circumstances in the case.

The suit was that of the estate of Frederick Atwood, an attorney against the Kimball Piano company and is said to have started over the sale of a piano. The litigation, taken three times, to the appellate court is said to have cost the contestants \$5,000 each.

Attorneys for the piano company in the original action and Atwood are dead.

FIRST WOMAN U.S. SENATOR'S GIVEN OATH OF OFFICE

Mrs. W. H. Felton of Georgia Will Hold Office for a Day

(By The Associated Press)
WASHINGTON, Nov. 21.—Mrs. W. H. Felton of Georgia took the oath of office today as the first woman United States senator. It was true that her term probably will be only for a day but the ceremony crowned with success the efforts the 87 year old lady had made to "blaze the path for American Womanhood in the senate and it was indicated that she would be content to step aside tomorrow in favor of Walter F. George, who was elected November 7 as her successor to fill the unexpired term of the late Senator Watson.

The seating of Mrs. Felton attracted a crowd to the senate which rivaled that which had greeted President Harding a short time before at the house. And she was at once showered with congratulations. When she was directed to proceed to the rostrum for the administering of the oath of office, her face broke into a smile. On the arm of Senator Harris and lifting her gown daintly, she walked down the center aisle and up to the vice-president's desk where Senator Cummins president pro tempore, was presiding.

As Senator Cummins motioned for her to raise her right hand she exhibited her only sign of unfamiliarity with the proceedings waving her hand to Mr. Cummins and smiling as if receiving a similar salute. Senator Harris nudged her arm and she then raised it gazing intently at Senator Cummins as the oath was delivered and giving her response in a low voice. There was some delay in seating Mrs. Felton due to an address of Senator Walsh, Democrat, Montana in support of her claim to the senate seat. This address went into the precedents involved in the proposed course and at first gave the impression that the Montana senator was opposing Mrs. Felton's claims. But later Mr. Walsh swung into strong support of her position declaring that her title was clear and that granting it should not be considered a favor or a chivalrous act.

Before going to the capital today Mrs. Felton went to the white house and paid her respects to President Harding. She is expected to be in her seat in the senate tomorrow, but it is said that Senator elect George will present his claim to the seat after Mrs. Felton has answered one roll call and perhaps delivered a brief address.

PREMIER POINCARÉ RETURNS TO PARIS FROM CONFERENCE

Reported That He Was Well Pleased With the Prospects

(By The Associated Press)

LAUSANNE, Nov. 21.—Premier Poincaré left Lausanne for Paris this evening. Lord Curzon and Benito Mussolini with members of the British and Italian delegations were at the station to bid him adieu.

It is understood that M. Poincaré left well satisfied on the whole with the prospects of the conference. He told newspaper correspondents there was reason to believe an honorable peace would be signed between Turkey and Greece in several weeks.

French circles have their greatest hope for the success of the gathering on the skill and tact of Lord Curzon, who already has done much to facilitate the proceedings.

Curzon had a talk tonight with Ismet Pasha, head of the Turkish delegation, which appears to have allayed many of the misgivings in the minds of the Turks and to have greatly relieved the strain on Turkish-British relations.

CLEMENCEAU SAYS GERMANS PREPARING FOR ANOTHER WAR

Tiger of France Addresses a Great Audience at the Metropolitan Opera House—Says That United States Should Renew Conversations with England and France

(By The Associated Press)
NEW YORK, Nov. 21.—The militarists in Germany already are preparing another war, Georges Clemenceau, war premier of France declared tonight in the first address of his American tour.

The Tiger of France, speaking at the Metropolitan Opera House reviewed the situation in Europe, pointing to a rapprochement of the Turks and soviet Russia as ominous war clouds.

In the meantime, he declared, Ludendorff and other German militarists were planning a coup against the democratic government there.

Describing the present as a time of "greatest crisis" he urged that the United States should renew conversations with France and England, which without definitely committing this country to any set program would present to German eyes a picture of the three unpleasant folks who faced her in the war. He said that sooner or later America would have to interest herself in the post war affairs of Europe because she could not continue to be comfortable and wealthy if Europe was covered with blood.

He expressed hope that the "United States might establish a plan as to what to be done in carrying out the terms of the peace treaty and join with England and France in imposing it on Germany."

He was frank in his criticism of America's postwar attitude declaring that America had a large share in imposing the peace terms and had a duty to see that they were enforced.

Challenging the worth of Germany's signature to a treaty the tiger declared that in France had known in 1918 that reparations would have been unpaid four years later she would have gone to Berlin.

The Tiger received a great burst of applause for the assertion.

M. Clemenceau, who protested that he came to America on no official mission but as a private citizen to present the truth as he saw it, declared that reparations was an American idea because President Wilson had come forward with his famous 14 points and the armistice represented essentially the American point of view. At mention of Woodrow Wilson there was another great burst of applause.

Expressing the hope that America could find some way of renewing conversations with France and England, looking toward enforcement of the peace treaty, Clemenceau said:

"I don't want to speak of the league of nations. But I might."

The Tiger said he did not believe in the league of nations as a means of preventing war, but that he believed in it as a means of arranging matters, deferring war and giving peoples time to think.

"You have seen one of the greatest dramas in the world," he said.

"We are now in the greatest crisis. Nobody knows when it will end and what effect European misery may have on American prosperity. He asked what America had made war for and what she had gained. He said America had come to the last point where she was granted time to think. No sacrifice was demanded of her except she will to assert herself, as the people she had vanquished were unable to do anything just at the present time.

M. Clemenceau, showing little sign of fatigue, spoke for nearly an hour and a half. There was only one bit of disturbance. That was when a heckler in the balcony screamed a few words.

"Put him out," came the cries from various parts of the house. The tiger never halted, continuing as if the heckler had been a mute.

A THOUGHT
Be Content with such things as ye have.—Hebrews 13:5.
It is thought by some persons that if the common people rule the world there will be millennial conditions. But the trouble is the common people have been ruling the world. Now the world is in sore need of uncommon people.

Henry Ford has declared that the average man does not begin the best years of his business life until after he has reached the age of forty. This statement will bring smiles of derision from men of the 30 to 40 period and great applause from those who have passed the 40 mark.
Men in the latter class have had so many suggestions that they were on the declining side of business life that they will hail Mr.

Ford's statement as further proof of his great business wisdom.
President Harding's special message to congress yesterday dealt almost wholly with the question of ship subsidy. The president is very clear and concise in setting forth the reasons why in his opinion the passage of such a measure is of most vital importance to the commercial welfare of the nation.
He decries especially the thought that opposition to the measure should be occupational or sectional, and suggests in his arguments that certainly there is as much reason for preparing the water ways for commerce as there is to spend millions upon the cross country highways for commercial purposes.
A reading of the message will make the issue clearer to the average mind, indicating as it does the various reasons why a ship "subsidy" should not be confused with the term "special privilege."

It verges upon the ridiculous to read the often repeated statement of the National Association Opposed to Prohibition that it is unalterably opposed to the saloon. But perhaps it is the intention of this philanthropic organization to dispense wine and beer at public drinking fountains.
At any rate, its approved plan for the general distribution of liquor has not been publicly outlined.

When the Treasury Department sent notices to each one of the debtor governments a few weeks ago that the United States was ready to negotiate refunding of their obligations, polite replies were received from all but Rumania. But the country that was the last to reply to the American note is now the first to comply with its request. A Rumanian delegation is now in Washington conferring with the American debt refunding commission on the \$11,000,000 owed the United States. It is probable that nego-

THE DECLINE IN R. R. ROLLING STOCK.
The railway situation in a nutshell is clearly presented in a recent article by President Charles H. Markham of the Illinois Central Railway System. Some comparative figures compiled by him covering the last 21 years are so impressive that they ought to have the thoughtful attention of every citizen. For purposes of comparison Mr. Markham divides the 21 year period into three divisions of seven years each. Here are the comparisons:
"In the seven years ended with 1907 the number of locomotives increased 2,500 a year, and the number of freight cars 90,000 a year. In the next seven years the number of locomotives increased only 1,500 a year, and the number of freight cars only 50,000 a year. In the seven years ended with 1921 the number of locomotives increased only 275 a year, and the number of freight cars only 6,000 a year. The increase in the number of locomotives in the seven years ended with 1921 was only one-ninth as great as in the seven years ended with 1907. The increase in the number of freight cars was only one-fifteenth as great. The decline in the amount and capacity of the equipment provided has been accompanied by a corresponding decline in other facilities. This condition cannot continue without causing frequently recurring losses of a serious nature to the country."

CRIME AND THE CONSTITUTION
(Springfield Journal.)
The criminal is not for the new constitution. So much may be set down in advance definitely. Whatever force of suffrage he may control, and it is material in the cities, will be thrown against the new draft, because it brings the law up into an equality with the criminal in his race to evade justice and removes some of the privileges which he has been enjoying in his pursuit of the citizen and his property.
Judge Marcus Kavanaugh, one of the oldest and ablest of the criminal court judges of the middle west and a man of unimpeachable reputation and high character endorses the new constitution, notwithstanding it has limited Chicago's voice in the general assembly and has not given her all that she is entitled to in the way of home rule.
But the judicial sections, he says, in a formal communication, appeal to him strongly. He suggests three or four new ideas which in his opinion justify the ratification of the new constitution. Let us repeat them. First, he says, "it wipes out the greatest evil of the criminal court, the professional bondsman. A man whose guilt is in doubt may offer bail at any time but the professional robber and burglar may be refused. Today the robber and burglar awaiting his trial may be set free to rob and murder for months and until his case is called." Second "it retains the grand jury for all good purposes but the present system of cost, delay and entanglement is dispensed with." Third, "it gives the accused the right of trial by a judge without a jury in all except capital cases." Most of the innocent men prefer this method. In Canada, Judge Kavanaugh says, this plan works for speedy trial and just decisions. Fourth: "It

provides for the consolidation of the courts. Our present system of half a dozen different courts entails waste of time, extravagance of money costs and delay of justice is always failure of justice." In view of what Judge Kavanaugh has here so clearly set forth it is not surprising to find the law breaking element and all the factors in society upon whom it depends for aid in evading the consequences of its acts lined up against the new constitution. Straw batters, professional bondsmen, certain types of criminal lawyers, politicians who foster crime by protecting it in return for its support, are among those who now fight the new constitution because of its evolutionary judicial changes.

This pen-picture by Artist Satterfield shows you the environment in which nature intended all of us to earn our living—close to the soil.
As you study this picture, you realize how unhealthful, artificial and unnatural is the sham existence, City Life.
The REAL life is out yonder—in the open country.

Behold autumn! Tang in the air. Frost on the pumpkin. Fodder in the shock. Turkeys so fat they can hardly walk. Leaves flutter, brown and dead, back to the soil from which they came.
So springs all life, from the soil, back to the soil, in the eternal cycle of mystery.

What is your favorite season? Spring, possibly, and it is beautiful—resurrection of life, the promise of better things to come.

Summer, too, lures—the midst of nature's vast preparations and life activities.
But autumn has a dignity, spectacular beauty and psychic calm that makes it stand out as the most impressive of all the seasons. Particularly does this seem so when you are in a philosophical mood.

For autumn is the time of harvest—the goal of all the other seasons, the harvest of nature's gigantic activities of birth and growth, assisted by man.
As you contemplate it all, it makes you wonder: "What will MY harvest be, in the autumn of life?"

NEEDLE AND THREAD EXTRACTED FROM KNEE

Harry Brunier, Roanoke, Ill., underwent a strange operation at Our Saviors hospital late Monday evening. While touring thru Missouri, he stopped for the night where he picked up a threaded

needle by kneeling in his room. Altho the needle worked its way into the flesh of the knee until it was quite buried, Brunier was unaware of the mishap until he noticed the thread hanging from his knee cap. He continued his trip to Jacksonville, where an X-ray revealed the direction the needle had taken.

Questionnaire on the
New Constitution

(Continued from Tuesday.)

Other Provisions.

Q. What is the purpose of Section 63?

A. This section permits the general assembly to provide a system by which small farmers may become the owners of land they rent, thus discouraging absentee landlordism.

Q. Why does the new constitution in Section 58 single out operative miners as a class for whose protection the legislature shall pass laws?

A. This section is in the present constitution and was retained because mining is one of the chief industries of Illinois and is one of the most hazardous occupations.

Q. What about woman suffrage?

A. The word "male" is stricken from the qualifications of electors giving women full right of suffrage, which they at present enjoy under the terms of the federal constitution, but not under the constitution of this state.

Q. How does the new constitution affect elections?

A. Provision is made for a single final election day each year, subject to change after 1926 if the legislature deems it advisable. This is in order to avoid the expense of numerous elections. It is expected that this provision will secure a heavier vote for all officers and on all propositions. It does not apply to Cook county.

Q. What is the purpose of Sections 37 and 39?

A. The purpose of these sections is to prevent large appropriation bills being pushed thru in the closing hours of the session without time for publicity and consideration. During the last two days in the last session of the general assembly \$161,865,000 out of a total of \$170,486,000 was appropriated. Much of this was in conference com-

tee until the closing hours and there was no time for publicity or even for consideration.

Q. Will laws and ordinances for municipal zoning be permitted by the new constitution?

A. Yes. A provision (Section 62) specifically authorizes such measures.

Q. Is there any radical change in the organization of the executive department?

A. There is not. The notable changes in the article on this subject are those which increase the qualifications of the governor and lieutenant governor, give the governor power to call out the militia to protect life or property at times of great public disaster, and safeguard the handling of public moneys.

Q. What major change in county government is made?

A. A more elastic provision than is in the present constitution gives the legislature more freedom in regulating, according to class, the forms of county government. Some of the present differences between the machinery of counties under township organization and counties not under township organization may be corrected under the new constitution.

Q. Is there any forward step in the provisions for education?

A. The University of Illinois and the State Normal Schools are recognized as constitutional and fundamental features of the educational system of the state.

Q. What about the Bible in the public schools?

A. The new constitution provides: "The reading of selections from any version of the Old and New Testaments in the public schools without comment shall never be held to be in conflict with this constitution." Illinois is now one of only three states in the union which prohibit Bible reading in the schools.

Q. Will the new constitution in any way affect the deep waterway, now under construction?

A. It permits completion of the work by giving the general assembly power to appropriate the necessary \$10,000,000 therefor.

Q. Will amending the new constitution be easier or more difficult than amending the old constitution has been?

A. The constitutional convention method is practically unchanged; but amending by legislative proposal and popular ratification is made easier by permitting the submission of amendments to two articles at one time, instead of to only one as at present. The new constitution forbids amendment of the same section oftener than once in four years, whereas the constitution of 1870 forbids amendment of the same article oftener than once in four years.

DARROW TO VISIT
CITY FRIDAY

Famous Chicago Attorney Will Make Address Here in Opposition to Proposed State Constitution.

William N. Hairgrove announced yesterday that definite arrangements had been made for the coming of Clarence Darrow to this city next Friday evening to make an address in opposition to the proposed new constitution of Illinois.

Mr. Darrow is to be in Springfield for a similar meeting on Thursday and Mr. Hairgrove took advantage of that fact to secure the presence of this prominent Chicago attorney.

Mr. Darrow recently engaged in a debate on the proposed constitution with Henry I. Green of Urbana. This debate took place at Moline and was arranged by the Illinois Bar Association. The meeting next Friday night is to be held at the court house and a large attendance is expected.

Some local people are in favor of the constitution, others here are opposed to it, and a still larger group is seeking information. Mr. Hairgrove also hopes to have present Willis J. Spaulding, one of the commissioners of Springfield, who has been responsible for the development of the municipal light and water plant in that city.

INDIANAPOLIS, Ind., Nov. 21.—Garland W. Powell, director of the Americanism commission of the American Legion in a statement issued here tonight protested against the proposed American lecture tour by Captain Helmuth Von Muecke, former German naval officer in command of the Cruiser Emden.
"Captain Von Muecke's coming to the United States to lecture is

deplorable," the statement said. "The American people have not forgotten the past world war and there still remains in the minds of the majority the causes of America's participation in this war, chief of which is the naval warfare carried on by Germany."
"I sincerely hope and trust that this man will realize that his lectures are not wanted by the vast majority of the people of this country. It would be a violation of the hospitality extended by the American people for any one to try to ram down their throats any part of a ruthless naval policy, which he represents and which was one of the causes for the United States entering the world war."

FARM BUREAU NOTES
Sunflowers As A Silage Crop
Sunflowers have come into quite general use as a silage crop in regions in which successful corn raising is uncertain on account of insect pests or climatic factors. Reports from those who have fed sunflower silage to dairy cows indicate wide difference in the degree of success attending the results of the use of sunflowers for silage. With the object of ascertaining, if possible, the cause of these differences and methods of overcoming the difficulties involved, the University of Illinois undertook an investigation which has recently been brought to a conclusion.
As a result of the data secured, it was concluded that under the field conditions obtaining at Urbana, sunflowers ensiled at a comparatively immature stage of development, (that is, when 20 to 25 percent of the plants begin to show the rays of their blossoms), make much better silage than those harvested at later stages of development, and there are no advantages, from the standpoint of a silage crop, to be gained by allowing the plants to become more mature. Some of the factors which led to this conclusion were as follows:
Sunflowers ensiled at the immature stage mentioned yielded silage which was more palatable than that produced from the more mature plants. Then sunflower silage produced from the immature plants served to maintain the production of milk more nearly on a level with that of corn silage rations than did the sunflower silage from the plants ensiled at more advanced stages of maturity. The silage from the earliest cut plants proved more digestible than that from the later cut. Although the total amount of dry matter in the crop continued to increase somewhat until the seeds became mature, there was no significant increase in the crop yield of digestible nutrients per acre after the crop had passed the stage when about 25 percent of the plants were in bloom. The corn crop, on the other hand, normally continues to increase rapidly in total digestible nutrients until the crop reaches the stage when it is ready to be put in the "shock."
The results obtained warrant the recommendation that where sunflowers are grown or silage un-

der field conditions similar to those at Urbana that the crop be ensiled before it has passed the stage when 20 to 25 percent of the plants are in bloom. W. B. Nevensen, Dairy Production, U. of I.

GRAND JURY WILL BE REASSEMBLED

Berry Robbery Case to Have Speedy Attention—Will Set Criminal Docket Today—Farm Rent Controversy on Trial.

The trial of T. H. Henderson vs. Robert Loving, a distress for rent proceeding, is being heard before Judge Smith in the circuit court. The complainant alleged rental due of about \$350 and the defendant a cross bill, claiming about \$750 due from labor.

The jury hearing the case includes George Tribble, Henry Eckhoff, Elmer Smith, James Myers, T. J. Wilson, Jay Cooper, Arthur Perbix, Robert Caldwell, Robert Smith, Watson Leek, Lawrence Dye and Guy Lynn.

Mr. Henderson is represented by W. N. Hairgrove and Judge M. T. Layman, and Mr. Loving's attorney is Walter W. Wright. The suit of A. C. Foster against John W. Sharp was called on in the circuit court Tuesday morning. This was an action in which the complainant sought to collect a commission of about \$600 alleged to be due on account of a real estate sale. The jury found the issues for the defendant.

To Set Criminal Docket.
Prisoners from the county jail and others who are out on bond will be brought into court this morning when the state's attorney, attorneys for the various defendants and the court will confer over the setting of the criminal dockets.

It is not the intention to have any jury trials the coming week as Judge Smith will find it necessary to spend much of the week holding court in Winchester.

Grand Jury to Reconvene.
An order was issued yesterday for reassembling of the grand jury which was temporarily discharged last Friday. The case of Howard Berry, who is accused of robbery, and possibly some other cases will come before the jury. It is not often that a Morgan county grand has been reassembled after adjournment has been taken.

SUNDAY PAVING DAY FOR NORTHMINSTER

Effort to Raise \$1,500 Paving Assessment for Jordan and Court Streets to Be Made.

Pavement day at Northminster church, a campaign to raise the \$1,500 pavement assessment for Jordan and Court streets, thus saving \$400 interest on later payments, is scheduled for Sunday next.

Letters to every member from the pastor and officers of the church are announcing the intention of the finance committee to raise the total amount, not in subscriptions but in cash, at that time.

A large cross at the front of church will contain squares representing the necessary subscriptions, a square being removed from the structure with each gift until the symbolized obligation is stripped from the cross.

The pastor, Rev. W. E. Spooner, is planning to have special speakers, and it is probable that Rev. Brown of the Washington street mission in Springfield and a recently ordained Italian minister of the district will be the chief speakers. Members and friends of the church are urged to come and bring gifts for the cause.

GILLETTE HOME RUINED BY FIRE

Second Floor of West College Avenue Residence Destroyed With Little Salvage — First Floor Intact.

The home of Charles P. Gillette, former superintendent of the Illinois School for the deaf suffered a great damage in a fire which broke out at the roof early Tuesday morning. The fire was not discovered until it had eaten thru the roof at one point.

Several Illinois College students were among the first to see the blaze, and they assisted Dr. Gillette in removing all the valuable furnishings that could be gotten out from the second story before the roof fell in. They then devoted their time to the first story, removing all the furniture with only damage from water.

The alarm had been turned in by a neighbor, and the fire department arrived in time to save the first story from the flames. Only a part of the second story wall was left of the upper part of the house. A hose from the School for the Deaf was of service for a time, but the pressure was insufficient.

The loss will amount to several thousand dollars. The most of the furnishings of the upper story were burned, although the college boys, acting under Mr. Gillette's instructions, saved a few of the most valuable places before the roof fell.

Nervous shock prostrated Mr. Gillette for a few hours following the fire.

AUTO ASSOCIATION NOW HOME CONCERN

Jacksonville Men Now Dominate Insurance Concern For Car Owners—Business Will Be Expanded In Large Way.

Offices of the American Automobile Thieft association have been opened in the Gilbert building on West State street. Jacksonville people will be interested in knowing that the control and stock of this corporation passed a number of weeks ago to a number of Jacksonville men, who are interested in the insurance business. J. V. Kennedy is now the president of the company and Hackett Wilder the secretary and treasurer.

Mr. Wilder, who is an insurance man of wide experience, will be in charge of the general offices of the company. The company began business a little more than a year ago in Springfield and development has come in a very rapid way.

Protection is given automobile owners thru membership in this organization against theft. In Springfield the past year the company's record was 100 percent, 19 automobiles stolen from members all being recovered.

In addition, the company has some special features of service, furnishing expert advice to its members with reference to all classes of insurance. A specialty is also made of road maps. Any member who contemplates a journey into other states is provided with maps giving full information about the routes he will follow. This is only one form of the special service that is afforded members in return for a comparatively small annual fee.

The corporation is financially sound and the plan has been passed upon by the insurance departments of practically all the states. It is the intention to develop the business in a national way and agencies are already being located in a large number of states.

The policies offered have, as indicated, various special features which carry instant appeal and the stockholders and officers of the company are very confident about the rapid growth of the company's business.

As indicated, it is already upon an established basis and the increase in business is merely a matter of development that will come thru the passage of time.

SAMUEL CRUM OF LITERBERRY DIES

Was Life Long Resident of the Community, Successful Farmer and Man of Influence.

Samuel H. Crum, farmer of Literberry and life long resident of the community, was called by death early Monday morning following two weeks' illness with pneumonia and heart disease. He had not been in the best of health for some time.

Mr. Crum had lived at the place of his death north of Literberry for fifteen years. He was born Dec. 14, 1851, east of the city at the old Crum homestead, the son of John W. and Mary A. Crum.

On December 19, 1872 he was married to Miss Jennie A. Henderson. He is survived by his wife, and by two sons, D. H. Crum and Ona Crum, both of the Literberry community. Four brothers also are still living: M. M. Crum and James A. Crum, of Jacksonville; W. H. Crum, of Literberry, and Charles A. Crum of Denver, Colo.

Mr. Crum was a man of popularity and influence in the community, being known as "Uncle Sam" to every one. He was a faithful and respected member of the Literberry Baptist church, having held every office in the church except that of deacon. His friendship and hospitality were a community tradition. Always a lover of horses, he became the owner of many fine animals and enjoyed a splendid reputation for live stock breeding as well as for general farming.

Funeral services will be held at 2 o'clock Thursday afternoon at the Literberry Baptist church, with burial in Arcadia cemetery following.

BERGER MOTOR CO. WILL GIVE ONE TON OF COAL WITH EACH USED CAR SOLD FOR THE NEXT 10 DAYS, NOV. 21 TO DEC. 1ST.

MR. HERMAN TO MOVE

Mr. Herman has not as yet definitely settled upon a new location, but hopes within a few weeks to be able to announce his future headquarters.

MR. DUNLAP CLOSING LONG LIFE JOURNEY

Victorian Resident of City Passed Away Tuesday—Funeral Service to Be Held From Residence.

A Morgan county veteran passed on Tuesday morning, when death came to James M. Dunlap at his Webster avenue home. Mr. Dunlap had not been in rugged health for several years past, and in recent months lost in strength from day to day.

The deceased, who was a son of Stephen and Dicey Dunlap, pioneer residents of Morgan county, was born in Champaign county, Ohio, May 27, 1840. In his early life the family home was changed to this county, and thru all the remaining years Mr. Dunlap was a resident.

His marriage to Arminta L. Orcear was solemnized Dec. 24, 1874, and their home was maintained on their farm about ten miles northeast of Jacksonville until about thirty years ago. At that time the family moved to Jacksonville and for a number of years Mr. Dunlap served as deputy and treasurer of Morgan county. Thru a period of years the deceased was the secretary of the Morgan County Fair association and one of the men who had an active part in the successful management of association affairs.

Mr. Dunlap's jovial spirit flitted him especially well for the duties of that position. That same spirit, which characterized him from young manhood to the days of old age, gave him a very wide circle of friends. So in the closing years of his life, as infirmities came, Mr. Dunlap was able to meet them with grim humor and he had a jovial word for every occasion.

The deceased is survived by his wife and one daughter, Mrs. Fay D. Begg. He also leaves two brothers, Stephen and Samuel Dunlap, both of this county. Mr. Dunlap was a member of Hospitaller Commandery No. 31, Knights Templar, and the Commandery will have charge of the service at Diamond Grove.

The funeral will be held at the residence at 10:30 o'clock Thursday morning, followed by interment at Diamond Grove cemetery.

COSSIP ABOUT SHERIFF APPOINTEES

List of Deputies to Serve Under Oyer Wright Is About Complete

Sheriff-Elect Oyer T. Wright, who returned to Jacksonville after a southern trip, stated that he was not ready to make known the complete list of his appointments. However, Mr. Wright confirmed the rumor that Burley Jones, now teacher at Maple Grove school in South Jacksonville, will be the chief deputy in charge of the office.

He also stated that one of his other appointees will be Henry G. Strawn, who has served as deputy sheriff at various times during the past year.

Roy Weatherford, janitor at the court house, and Michael Crowe, assistant janitor are to remain in the county service, Mr. Wright said. Asked as to the names of the two other deputy sheriffs, to be appointed, Mr. Wright declared that he was not fully ready to make announcement. However, it has been a current rumor that one of these places will be filled by Edgar Jones, known to people of Franklin and Waverly precincts, as "Buster" Jones.

MAKE PLANS FOR NEW WOODSON SCHOOL

Structure Destroyed By Fire Will Be Replaced By Modern Building—Directors Here Tuesday To Consult With County Superintendent.

Directors of the Woodson school were in Jacksonville Tuesday in conference with County Superintendent of Schools Vasconcellos with reference to a new building. The Woodson school was destroyed by fire Monday, but only a half day of school work was lost. Practically all of the school house equipment was saved from the flames and was quickly installed in Colton's hall. That building will continue to be used pending the erection of a new edifice.

L. A. Fitzsimmons, J. C. Self and Dr. R. R. Jones are the directors. Their plans of course have not been fully formulated but they will have erected just as complete a school building as will be possible from the funds available.

MANY CHRYSANTHEMUMS AT STATE HOSPITAL

The greenhouse at Jacksonville State Hospital presents an especially attractive appearance just at this time, owing to the large number of giant chrysanthemums now in full bloom there. The flowers are of a wide variety of colors and varieties and are arranged on a long table, 50 feet by 3 feet. There are three hundred individual plants, the various colors arranged in a very artistic way, and the sight is one which will delight visitors at the greenhouse. Edward Young is in charge of the greenhouse and receives all visitors courteously.

By Morgan

(BY ENSLEY MOORE)

Member Illinois State Historical Society

The Kansas City Star of Nov. 19th. inst. under the head of "Who's Who in Kansas City," had this relating to Mr. Lewis W. Keplinger, illustrated by photos at 19 years of age, at 45, and today:

"KEPLINGER—Lewis Walter, Kansas City, Kas., attorney. Born on a farm in Morgan County, Illinois, August 8, 1841, son of Samuel Keplinger, Morgan County, Illinois, and Permelia Green, Morgan County, Illinois.

"History of Life—Studied at rural schools and worked on a farm. One year before the Civil War entered Illinois college. Enlisted as a private in the 32nd Illinois Infantry. Fought in the battles of Vicksburg, Fort Donelson, Kennesaw Mountain and marched with Gen. W. T. Sherman to the sea. Was raised to sergeant the third year of the war and was commissioned second lieutenant the last year. During the closing three months of the war was aide-camp to Gen. W. W. Belknap, who later became secretary of war. After the war returned to Bloomington, Ill., and entered the Wesleyan university, from which he was graduated in 1868. Studied law two years following in a private law office. Removed to Humboldt, Kas., in 1870. In 1883 came to Kansas City, Kas., and began the practice of law. Served one term as county attorney of Wyandotte County and two terms as city attorney at Kansas City, Kas., in all civic affairs in Kansas City, Kansas, particularly those applying to educational matters.

"Boyhood Ambition—To be a school teacher, desired knowledge on every subject.

"Clubs—None. Mr. Keplinger never was a 'lifer.' A member of the G. A. R., however, and active in the interest of Civil War veterans.

"Hobbies—None.
"Recreation—Reading, study, thinking. It gives me rest from the busy hours of the day," says Mr. Keplinger. "To sit at home and think, read or study."

"Ambition for Kansas City—Politically, Kansas City, Mo., and Kansas City, Kas., are separate—commercially they are one, Judge Keplinger observes. "Each should take an interest in the other just as there were no state line between. I hope to see Greater Kansas City develop to the third city of the continent thru the merging of its commercial resources and developing its opportunities. The geographical location and progress of the past justifies that speculation." It may be added that Mr. Keplinger was a brother of Hardin G. Keplinger, late the well known banker of Franklin, this county. In Illinois college Mr. Keplinger was a member of Sigma Pi Society, as was H. G. Keplinger. Mr. L. W. Keplinger is also the author of at least one book. Keplinger was probably a cousin of Oliver S. Green, son of Stephen Green, last of Grove and Westminster streets here.

Gen. William D. Green is the other "Morgan" to whom the O. J. man would refer. There was quite a family of the older Greens, early settlers of Morgan county, to one of which William Devore Green belonged. The Greens were of Ohio, before coming to Illinois, and they became prominent and leading farmers of this section. Since then there have been a number of the younger generations also prominent in this county, among them being Marshall, who last resided on the south side of West College avenue, just east of Westminster street.

Our older people always recall with great pride the Hardin Light Guard, which, with the Union Guards, was one of the very first to answer Lincoln's first call for Volunteers, in April, 1861.

William D. Green enlisted in the organization and left for the War April 22, 1861 becoming a member of the 10th Illinois Infantry. He was mustered out of that "First Three Month" service in July, but he enlisted again as an officer on Gen. Steel's staff. He rose successively to be a lieutenant-colonel, colonel and brigadier-general, serving to the end of the conflict.

After that he went, presumably, to St. Louis, Mo., where he died in 1872.

Gen. Green, from the first, looked the officer that he became. For some reason he has not been remembered historically, as he should have been.

He Was Born in this county, probably a little east or southeast of this city, September 3rd, 1841, so his was a short life in which to make history. Mr. Green attended college at Lebanon, Illinois, a year, and entered Illinois College in 1855, remaining there a year. In "Illinois" he was a member of Phi Alpha society.

He was probably a cousin of Lewis W., and Hardin G. Keplinger.

It is to be regretted that we have not more details of the history of these two brave sons of Old Morgan.

PLAYERS VIOLATING BARNSTORMING RULE

CHICAGO, Nov. 21.—Investigation of reports that two major league baseball players are violating the rule regarding barnstorming by playing winter baseball on the Pacific coast, was started today by Commissioner Landis. The players mentioned are Billy Pierce, pitcher of the Boston Red Sox and "Red" Oldham, twirler of the Detroit Tigers. They are alleged to have been members of a club which played in Los Angeles last Sunday.

In September a circular letter was given all players regarding the rules in which Article II, Section 21 was referred to. The rule reads:

"No player shall participate in any exhibition game after Oct. 31, unless in special instances and then only with the unanimous consent of the advisory council."

"The advisory council has made a few concessions, by permitting a number of major league stars to become members of the team touring the Orient. On one or two other occasions permission was granted individuals to play in only one game after October 31 in their home town or as members of some American Legion club."

"No permission has been given Pierce or Oldham to play baseball O'Connor, secretary to the commissioner said today."

KERR HAS NOT ASKED FOR REINSTATEMENT

Chicago, Nov. 21.—Dick Kerr, former pitcher of the Chicago White Sox has not applied to Commissioner Landis for reinstatement in organized baseball it was announced today. The report from Fort Worth, Texas, last night said that Kerr had written a friend that he had asked for reinstatement.

If he applies to the commissioner his case will be handled like others according to Secretary Leslie M. O'Connor, namely that he will have to serve a year on the inactive list.

Kerr last season cast his lot with a semi-professional club here.

MILLARD PRAISES COACH W. T. HARMON

Howard V. Millard, sporting editor of the *Beast* Review, in Monday's issue gives Coach W. T. Harmon of Illinois praise for his ability as a developer of football players. Mr. Millard was referee of the Illinois-Eureka contest at Eureka and saw the Blue and White just when the men were hitting their stride. The article follows:

"To the average football follower the defeat of Illinois Wesleyan by Illinois College Saturday will be heralded as an upset, but to those who have followed the Harmon team this season and had the chance to see them work, the result of the contest was not a great shock. The fact that the Harmon team played Bradley 6 to 0 was enough to indicate strength while their defeat of Eureka 12 to 0 showed that the Harmon machine was on the up grade."

"You will have to look a long way in the minor college group before you find a better teacher of football than Bill Harmon."

BALKLINE CROWN IS REGAINED BY HOPPE

Defeated Jake Schaefer Who Won Title from Him at Chicago a Year Ago—Played Wonderful Billiards.

NEW YORK, Nov. 21.—Willie Hoppe regained his balk line crown tonight. In a match filled with daring play, in which his gathering shots stood forth, the old champion made his sensational come-back by defeating Jake Schaefer, winner of the title a year ago at Chicago by the score of 500 to 283 in the final match of the international 18.2 balk line billiard championship tournament at the Hotel Pennsylvania.

Hoppe came from behind at a critical stage of the contest when Schaefer was leading him by more than 100 points. At the close he put together massive runs of 188 and an unfinished 106, that marked his return as the reigning monarch of caroms.

Hoppe's winning average was 441.8-12 and his other high runs 111 and 40. Schaefer's average was 237.1-12 with runs of 90, 68 and 45.

On the whole, Hoppe was somewhat uncertain of stroke at times, but he made up for this by his remarkable ability to play cushion shots of infinite variety. Hoppe's grand average was 37.87 while Schaefer takes second prize by his grand average of 30.94.

TRIPLE TIE IS SEEN IN BIG TEN

CHICAGO, Nov. 21.—With a triple tie in prospect the 1922 Western conference football title won last year by Iowa, may be left without an owner. Iowa, Michigan and Chicago, remain undefeated and should the three win next Saturday in the season's final games the conference honors will be shared by the trio.

Major John L. Griffith, commissioner of athletics in the conference announced tonight that there is no provision in the rules for a post-season playoff and that the rule limiting the conference teams to seven games would prevent a deciding contest.

Iowa and Chicago each have five conference games on their schedules, but Michigan has only four. In the final games next Saturday Michigan meets Minnesota, Chicago will face Wisconsin, while Northwestern will furnish Iowa's opposition.

Since the war there have been several disputed titles. In 1919, Illinois lost to the twice defeated Wisconsin eleven, but because Coach Zuppke of Illinois chose to play seven conference games, Illinois was popularly awarded the title. The 1920 race was clearly Ohio's and last year Iowa won the title on a percentage basis without meeting Chicago, Wisconsin, Ohio State or Michigan, all of which would have been formidable opponents.

In seven seasons, since 1910, there have been disputed claims to the championship. Major Griffith said, "and as long as there are ten teams in the conference with six or seven of them turning out splendid eleven's every fall, disputed claims to the title will likely result."

CONTI DEFEATS EDOUARD HOREMANS

NEW YORK, Nov. 21.—Roger Conti of France today defeated Edouard Horemans of Belgium in the fourteenth game of the 18.2 balk line billiard championship tournament, 500 to 303.

By his victory a match in which the Frenchman sustained his lead through the game upset the calculations of a triple tie. On game won and lost the French star and Horemans tie at three victories two defeats for third place which is to be determined by the grand average or total points scored. Conti is conceded the winner of the place on his grand average of above 50 while Horemans is 28.

Conti was in good stroke all the way, his nursing being good, while Horemans missed frequently on his famous masse.

HI Y HOLDS LAST BROOKLYN MEETING

The last meeting of the season at Brooklyn church was held by the Hi Y club Tuesday evening, the next series of meetings to be held at Northminster church, beginning next Tuesday.

The supper Tuesday was served by the Brooklyn ladies under the supervision of Mrs. John Kasprupp, and resounding cheers from the boys showed their appreciation of the fine menu.

The meeting, aside from the supper, was held in the Sunday school room of the church. When the meeting was called to order John Hackett was appointed sergeant at arms, and was kept moderately busy during the meeting recording offences against the order of the meeting, for which he later meted out punishment with the instrument known as the "slapperetis."

The subject of the lesson was "Falsifying," and a spirited discussion followed the opening of the question by Mr. Findley.

Twenty boys, it was discovered, have attended every meeting this year. The list of these follows: Lee Baldwin, Art Bergstrom, Robert Brown, Alfred Crawford, Jason Fox, Louis Gard, Edward Joquin, Willard Johnson, Carl Keener, Merle Martin, John W. Putnam, Hoyt Rallings, F. Russell Rawlings, Edwin Saye, Keith Scholtfield, Clarence Souza, Earl Tilton, Harvey Vollrath, Charles Williamson and Allyn Wolfe.

Market Report

By The Associated Press

LITTLE TRADING IN STOCY MARKET

NEW YORK, Nov. 21.—Dullness again characterized the trading in today's stock market prices moving in a confused manner and operations being almost entirely of a professional character.

Opening prices generally were firm, but acute weakness of General Asphalt common and preferred and United States Rubber caused the list to turn heavy before the end of the first hour and thereafter prices bobbed up and down generally within narrow limits short selling against some standard issues giving the market the appearance of weakness at the close. Renewed activity was noted in the sugar shares.

Standard railroad shares generally showed slight recessions on comparatively small turnovers. Neglect of these issues being attributed to the uncertainty concerning the railroad legislative program of congress.

President Willard's declaration to stock holders that the shopmen's strike cost the Baltimore & Ohio railroad between \$10,000,000 and \$11,000,000 had a bearing on sentiment as regards the railroad shares.

Independent steels, motors, motor accessories, chemicals, and textiles all showed up well at the start but final prices presented a varied assortment of changes. Early buying of Midvale which touched 32 revived reports of its possible absorption by Bethlehem Steel closed at 30. United States Steel also moved off nearly a half while Bethlehem "B" Republic and Vanadium yielded at least a point each.

Baldwin, Studelaker and Cor Products enjoyed brief periods of strength. United States government issues held steady, the largest gain taking place in Liberty 3½s, which advanced 10 cents on \$100. Total bond sales per value, were \$10,105,000.

KANSAS CITY MARKET REVIEW

Kansas City Stock Yards, November 20th.—Receipts today were 25,000 cattle, 5,000 calves, 14,000 hogs, and 6,000 sheep. All divisions reported larger supplies than a year ago. This is the American Royal Show week, and the liberal per cent of the offerings are good to choice stockers and feeders. More than 60 carloads of calves, yearlings and two are in the car lot division of the American Royal and more than 200 car loads of choice New Mexico, Texas, and Colorado and Kansas stockers and feeders are available in the open market. In addition to this large supply of choice thin cattle, there are plenty of the plainer kinds to meet all demand.

Trade opened early with prices in all divisions of the cattle market steady, except short fed classes and they were slightly lower. The stockers and feeders in the car lot division of the American Royal will be sold Thursday November 23rd, at auction, and it will be an excellent chance to get cattle for making show and Christmas beefs.

After this week there will be a material drop in receipts of stockers and feeders, and it will be hard to get the choice classes. The car situation has improved materially, and prompt shipments are being made in all directions.

Hog prices are lower than a week ago. The top price was \$7.95,

RED CROSS DOES NOT FORGET THE VETERAN

So many times the question has been asked, "Well, what do you do for the Soldiers whom you claim to have helped?" Then perhaps the following story will enlighten the people who are wondering.

One day last fall, word was received at Morgan County Red Cross Office, that a Morgan County man was suffering from an active case of tuberculosis in another town, where he and his wife and four children were struggling to make a living. Because of the fact that he has not established a residence in another county this county was not responsible for him. He had come to the place that in spite of determination and strong will he was able no longer to care for the family. The wife, a frail, delicate woman, was able to do nothing more than care for the four children ranging from a baby of eight months to a boy of eight years. Altho she had attempted to support the family by doing washings.

As is the case with the majority of men, who have any determination, this man had not, until shortly before he came to our attention, filed a claim for compensation, as he felt that as long as he could work, he did not want to ask for assistance. Of course, the longer the time elapsing between date of discharge and date of filing claim the harder it is to prove that the disability claimed is of service origin. The question was "What is to be done for this family, which under ordinary circumstances was a self-supporting self respecting family, but which because of the illness of the father which was undoubtedly attributable to service was at the mercy of whomever would help it."

Immediately upon establishing the fact of his legal residence in Morgan County and the fact that the man was a service man and suffering from active tuberculosis the Morgan County Red Cross assumed the responsibility of this family, brought it to Jacksonville, where it was among friends and relatives and where the men

could prosecute his claim to greater advantage because he could get into personal contact with people who could make affidavit in substantiation of his claim.

In the meantime, the family must be taken care of and the wife and children must not be neglected. The Morgan County Red Cross arose to the occasion and provided a home and living for this family. It was realized that this would never put the family on their feet and make it possible for them to care for themselves, so this was only the beginning. The Red Cross immediately took steps to see that the compensation claim was brought to the attention of the Veterans Bureau and every possible form of evidence secured.

In the reading, this sounds very simple—but it meant months of diligent efforts on the part of both the man and the Red Cross, many trips into the county were made to get the proper persons to make strong affidavits which would establish the compensation claim.

Finally one day, months after the family had come to the attention of the Morgan County Red Cross, the wife greeted the visitor with tears in her eyes, saying, "The compensation has been awarded and we have received a check for back pay and are to receive compensation monthly so that we can now again be independent."

But this again was not the only problem to be met. The four children of necessity had lived in close quarters with the father and were in constant danger of contracting the dreaded disease from him. The two boys old enough to go to school were placed in the Fresh Air School and precautions taken with the two younger children and the father placed in a tuberculosis sanatorium where he is to receive proper care and treatment. His case is so advanced that he will have to remain about one year. In the meantime, the wife and children are receiving money monthly and the father very proudly sends small checks to the Red Cross each month, to repay the loan which he had received from us.

This is only one of the dozens of cases that are handled by Morgan County Red Cross and yet people ask, "What is the Red Cross doing?"
